Md Aasim Shaibani

+91 9973717636 | aasimshaibani25@gmail.com | linkedin.com/in/mdaasim01 | github.com/Aasim78

Education

Sahyadri College of Engineering and Management — Karnataka, India
B.E. in Computer Science Engineering — CGPA: 9.02 — *2023 – 2027*

Publications

- Md Aasim Shaibani et al., "MentorConnect: A Data-Driven Multi-Year Mentorship System for Engineering Education," published in the Proceedings of the 4th International Conference on Knowledge Engineering and Communication Systems (ICKECS 2026), IEEE.

Technical Skills

Languages: C, Python, C++, Java
Core CS: Data Structures & Algorithms, OOP, DBMS
Web: HTML, CSS, React
Database: MySQL, PostgreSQL, MongoDB (Basic)
Tools: Git, GitHub, VS Code, IntelliJ IDEA

Projects

MentorConnect – Student Mentorship Platform (Team Lead) — React, Node.js, Express, PostgreSQL

- Led a team in developing a full-stack mentor–mentee management platform with role-based dashboards for students, mentors, and administrators
- Implemented authentication, mentor profiles, academic tracking, meetings, and chat functionality using React and Express REST APIs
- Integrated PostgreSQL with Drizzle ORM and deployed the application using Render
- GitHub | Live Demo

FinAgent – AI Financial Analysis Assistant — Qwen3, Ollama, FastAPI, React

- Developed an AI-powered financial analysis assistant that interprets natural-language queries and uses an LLM for intent recognition and tool selection
- Implemented deterministic Python tools for revenue, expense, profit, profit margin, month-to-month growth, and overall financial performance analysis
- Built an interactive React dashboard with FastAPI backend and local Qwen3/Ollama inference, including missing-data handling without fabricating values
- GitHub

Gesture-Controlled Computer Interaction — Python, OpenCV, MediaPipe

- Developed a real-time touchless computer-control system using webcam input, MediaPipe hand tracking, and 21 hand landmarks
- Implemented gesture-based cursor movement, left/right mouse clicks, and Windows volume control using landmark-based gesture recognition
- Designed lightweight gesture heuristics for real-time interaction and integrated computer-vision processing with OS-level controls
- GitHub

Certifications

- Basics of Python – Infosys SpringBoard

Extra-Curricular

- Secured Top 5 position – Skill Sangam Hackathon
- Secured 3rd position – Poster Presentation
- Volunteer – Swachhanjali Plogging Drive (NSS)
